Hi Greg,

We'd love to know a bit of your feedback so we can endorse you properly to the team and raise your concerns so we can provide you with an efficient solution. Could you please share two or three points about what you like or dislike regarding the designs we sent over?

As per the call, the client expressed that he wants to disregard the mascot and the closest to what the client have in mind are these 2 logos but he would need to discuss the possible changes with his team first and get back to us.

Our team followed up on the 3rd of March as we have not received any update yet or any revision requests and the client expressed that they like to have a refund. This concern has been escalated to our VP of operations and the client has agreed to have another phone call.

Hi Greg,

This is Robin, VP of Operations. I'd like to schedule a call to discuss what happened with the project. It seems there may have been some miscommunication, and I'm here to personally take charge and expedite the process. Please let me know when you're available, and we can work to get this project back on track.

Best,
Robin

Not well, at this time I would like a refund of my deposit. I have received no help or usable designs.

I spoke with you a week ago and have received no revisions the whole week. I needed a design urgently. This will not work, the customer service and designs I have received for 3500 dollars have been unacceptable. I have tried to be nice and professional about this, but at this point I need my money back immediately so that I can find someone else to get a logo designed.

Thank you,
Greg

Our VP of Operations outlined our policy via call and addressed the client's concern. They had an agreement that our team will work on another design and then go from there. The new designs has been presented to the client on the 8th of March via Google meet and the client liked them. He mentioned he'll email or call us back once he has an update for us.
